Log Off

Log off your session

Helpful Hints

- ❖ The data displayed in MEDITECH® Mobile Rounding is the same data in the MEDITECH® PWM/EMR module.
- ❖ Pressing and holding down the MEDITECH® icon and clicking on the "x" to display the "Delete" option allows deleting the icon.
- ❖ PLEASE DO NOT USE Code Visit, Problems, and Sign. Although you may be able to click and enter information, the information does not save, or "go" anywhere. For Sign, the approved way to sign is via mModal.

Introduction to the MEDITECH® Mobile Rounding App For Smart Phones

For additional information and assistance, please contact Service Desk at **604.585.5544**

respect · caring · trust

MEDITECH® Mobile Rounding Application (App)

The MEDITECH® Mobile Rounding application allows providers to:

- Access patient data, such as labs, from EMR
- Add or a remove a patient from the rounding list
- Look up the location of a patient (by name, account, hospital)
- View a summary of patient information, such as code status, height, weight, and medications

Includes, but is not limited to, the inability to view: All Restrictions patient visits at once, outpatient information, and nursing documentation (except admitted patients at ARH)

Access Requirements

Only providers with privileges in FHA are eligible for the Mobile app.

Providers (or designate) must request enrollment of their device(s). There is an online form accessed via FHPulse, <http://fhworkspaces/sites/AirWatch/SitePages/AirWatch%20Request%20Form.aspx>

Device Requirements

- iPhones - iOS versions 9.0 and above
- Samsung Galaxy - Android versions 5.1 and above

Logging into MEDITECH® Mobile Rounding App

1. Select the MEDITECH Mobile
