

New Regional Pre-Printed Orders (PPO) for COVID-19 – Adult

What's Happening?

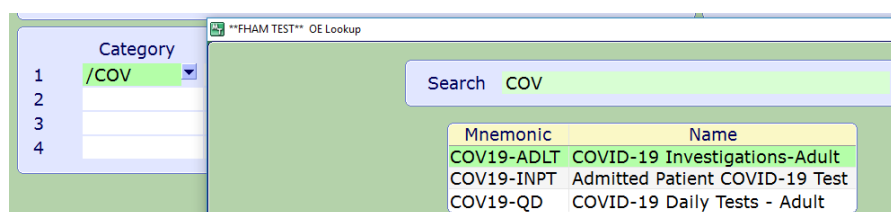

- New Regional Pre-Printed Orders (PPO) for Suspected/Confirmed COVID-19 Treatment – Adult (DRDO107339A) will be available on Web FormImprint on Friday, April 3, 2020.
- Two new corresponding Meditech Order Entry Order Sets will also be available on Friday April 3, 2020 for ordering COVID-19 investigations per the Meditech Order Entry (OE) process orders desktop.

Web FormImprint:

- The form is mapped to:
 - Regional Preprinted Orders
 - Emergency; Preprinted Orders (Packs)
 - HAU; Preprinted Orders
 - ICU; Preprinted Orders
 - Hospitalist; Preprinted Orders
- In order for alphabetical sorting by condition, the forms tree short name is “COVID-19 Suspected-Confirmed-Adult_DRDO107339A. For key word search, use “**COVID**”.

Order Entry Order Sets:

- Mnemonic: **COV19-ADLT** | Name: **COVID-19 Investigations-Adult**
- Mnemonic: **COV19-QD** | Name: **COVID-19 Daily Tests-Adult**
 - On the Meditech Order Entry Process Orders screen, type **/COV**, press the F9 key and click with your mouse to choose the appropriate OE Order Set from the list.

How This May Affect You?

- Use Web FormImprint to locate and print the Regional PPO
- Use the corresponding Order Entry Order Sets to save time in ordering the PPO investigations:
 - Be sure to remove procedures that are not ordered, and add procedures that are ordered but not included in the Order Entry Order Set per the ordering physician.

Questions?

For questions on this PPO, please contact:
