

## **MEDICAL LEADER: Clinical Education Head**

The Medical Leader role is a new and exciting opportunity to provide leadership and direction within the Palliative Care Network in Fraser Health (FH). You will work with fellow physician leaders and other clinical staff to develop evidence-based education as part of the FH Department of Palliative Care leadership team. Your knowledge of Palliative Care as well the players involved will benefit you in planning and coordinating robust initiatives with multiple stakeholders.

### **Overview**

The Medical Leader, Clinical Education is a physician who has a passion for enabling high quality, evidence-based person-centred, goal-concordant care within all settings of care in Fraser Health in collaboration with the Clinical Nurse Specialists, the Clinical Educator and other physician educators.

This position will report to the Regional Medical Director (RMD), Palliative Care Network and be part of the Leadership team comprised of the Regional Medical Director/Regional Department Head, Local Department Heads, and other Medical Leads. The position will be responsible for developing a consistent approach to development of resources and workshops that build core competencies in Palliative Care for primary and secondary level providers within the FH Palliative Care Network. Participation in the provincial Pall Ed BC Community of Practice is strongly encouraged.

You will dedicate approximately 10-12 hours per month to this leadership role which will include attending regularly scheduled meetings with the FH Department of Palliative Care leadership team, meetings with designated Clinical Nurse Specialists and the Clinical Nurse Educator and other staff and liaison with the Advance Care Planning team.

The hours are flexible - Evening meetings and travel may be required. The position would be for 3 years.

### **KEY AREAS OF INVOLVEMENT INCLUDE:**

1. Providing leadership in managing all aspects of education including the development and coordination of Continuing Medical Education (CME) opportunities (e.g. Journal clubs), conferences, mentorship programs (E.g. GP Associates & Nurse Practitioners) and leadership development opportunities.
2. Helping to plan, deliver and lead various educational workshops including Learning Essential Approaches to Palliative Care (LEAP) and Serious Illness Conversation workshops and other

educational initiatives or projects to promote uptake of a Palliative Approach to Care,

3. Ensuring and coordinating access to Palliative Care educational resources for learners
4. Liaison and collaboration with key stakeholders (e.g. Divisions of Palliative Care; specialist providers) and clinical areas to support integration and uptake of a Palliative Approach to Care
5. Coordination with UBC Continuing Professional Development to promote uptake of relevant education and obtain CME credits where appropriate
6. Seeking educational grant and funding opportunities in conjunction with the RDH Palliative Care and Medical Lead Advance Care Planning.
