

## REGIONAL MEDICAL DIRECTOR

### Palliative Care

The Regional Medical Director Palliative Care will build and support a culture of patient safety and clinical effectiveness, where the patient and family are at the centre of clinical system design.

The RMD role provides regional leadership and coordination to support the successful delivery of a care and service network within Fraser Health from a medical perspective. This senior leadership position, in partnership with an assigned Executive Director, is accountable for supporting standardization of care delivery across the network and monitoring performance against standards.

This position reports to the Executive Medical Director, Physician Partnerships & Performance.

Success in this position will require you to demonstrate leadership to promote and support complex organization change across health service systems to support broad transformation objectives.

As the successful candidate you have:

- Eligibility for membership on the FH Medical Staff in the Palliative Care Program
- Five (5) years leadership experience with the healthcare sector and experience in hospital based leadership is highly desirable
- A Master's degree in health administration or business administration is preferred
- Additional leadership training is preferred
- Experience with budgetary and operational planning is desirable

Compensated under contract for a 3 year term.
