

Site Medical Director Burnaby Hospital

Fraser Health is responsible for the delivery of hospital and community-based health services to over 1.9 million people in 20 diverse communities from Burnaby to Fraser Canyon within the traditional, ancestral and unceded territories of the Coast Salish and Nlaka'pamux Nations, which is home to six Métis Chartered Communities.

We are seeking an innovative physician to join our team as a Site Medical Director (SMD) for Burnaby Hospital. The Site Medical Director will build and support a culture of patient and care-team safety and clinical effectiveness, where the patient and family are the centre of clinical system design. Your leadership will help us move complex change across our health service system to support broad transformation objectives. As a consensus builder, you lead by example and understand how to address site needs within the broader context of the health delivery system and multiple service delivery requirements. If this work sparks excitement within you, we welcome you to join our collaborative team.

Burnaby Hospital is a 282-bed hospital offering medical, surgical, tertiary palliative care, psychiatry, as well as 24/7 emergency services with 83,833 visits annually. Burnaby Hospital redevelopment is a multi-year project occurring in two phases that will transform almost every area of the hospital. Phase one's estimated date of completion is 2025 which includes a mental health and substance use unit, maternity unit, neonatal ICU and new medicine unit.

Key Areas of Involvement:

- Responsible and accountable for providing leadership in all aspects of planning, operation and evaluation for activities of medical staff within the hospital and providing leadership to the Heads of Department (Local) who report jointly to their respective Regional Department Heads
- Share accountability and responsibility with the Executive Director for site budget and operational planning, coordination and direction of care, patient access and transitions, and building an inter-disciplinary team at the hospital in order to deliver quality patient centred care across the care continuum.
- Ensure appropriate standards of care and practice, based on regional standards, are developed and implemented across the inter-disciplinary team.
- Advocate for resources and other supports at the hospital (including but not limited to professional practice, quality, Health and Business Analytics) to support quality improvement and patient safety activities.
- Collaborate with the appropriate PMD or RMD for physician resource planning and recruitment of Medical Staff members at the hospital.

- Work collaboratively with EMD Physician Partnerships and Development to ensure that all contracts with physicians are managed effectively and in compliance with FH policies and procedures, and processes addressing credentialing and discipline of members of the Medical Staff are in place and complied with.
- In partnership with the ED develop operational plans and budgets, including capital and operating budget, for the hospital to meet clinical needs of the population.
- Develop strategies to enhance Medical Staff member's understanding of the budget process and support involvement of Medical Staff members throughout the process.
- Provide leadership through mentoring, coaching, and modeling a collaborative working style and leading by influence and respect.
- Provide leadership to support and coordinate the requirements of programs operating within the hospital (connecting with regional program leaders on a regular basis), and escalate clinical delivery issues as necessary
- Provide leadership to support and ensure a culturally safe and inclusive workplace

Qualifications & Experience:

- Eligibility for membership on the Fraser Health Medical Staff
- Five (5) years' leadership experience within the healthcare sector
- A Master's degree in health administration or business administration is preferred and experience in hospital based leadership is highly desirable
- Additional leadership training is preferred
- Experience with budgetary and operational planning is desirable.

Time Commitment:

0.51 FTE
