By initialing and signing, I confirm that:

Initials	The patient is personally known to me or has provided proof of identity, and has consented to this assessment.
Initials	I do not know or believe that I am a beneficiary under the will of the patient requesting medical assistance in dying or a recipient, in any other way, of a financial or other material benefit resulting from the patient's death, other than the standard compensation for their services relating to the request.
Initials	The patient's request for medical assistance in dying was made in writing and signed and dated by the patient or by another person on their behalf and under their express direction.
Initials	I am satisfied that the request was signed and dated by the patient, or by another person on their behalf and under their express direction, before two independent witnesses who then also signed and dated the request.
Initials	The patient's request for medical assistance in dying was signed and dated after the patient was informed by a practitioner that they have a grievous and irremediable medical condition.
Initials	The other assessor and I are not each other's mentor or supervisor, and I do not know or believe that I am connected to the other assessor or to the patient in any other way that would affect my objectivity.

I have determined that the patient has been fully informed of:

- Their medical diagnosis and prognosis.
- The feasible alternatives including, but not limited to, comfort care, hospice care, and pain control.
- Their right to withdraw their request at any time and in any manner.
- The potential risks associated with taking the medication to be prescribed.
- The probable outcome/result of taking the medication to be prescribed.
- The recommendation to seek advice on life insurance implications.

I have determined that the patient meets all of the criteria to be eligible for medical assistance in dying:

Initials	The patient is eligible for health services funded by a government in Canada.
Initials	The patient is at least 18 years of age.
Initials	The patient is capable of making this health care decision.
Initials	The patient has a grievous and irremediable medical condition (serious and incurable illness, disease, or disability) that causes the patient enduring physical or psychological suffering that is intolerable to them and that cannot be relieved in a manner that the patient considers acceptable. The patient is in an advanced state of irreversible decline and natural death is reasonably foreseeable.
Initials	The patient has made a voluntary request for medical assistance in dying that was not made as a result of external pressure.
Initials	The patient has given informed consent to receive medical assistance in dying, after having been informed of the means that are available to relieve their suffering, including palliative care.

Consideration of capability to provide informed consent. Initial one of the following:
(Capable means that person is able to understand the relevant information and the consequences of their choices)

Initials	I have no reason to believe the patient is incapable of providing informed consent to medical assistance in dying.
----------	---

OR

Initials	I have reason to be concerned about capability and I have referred the patient to another practitioner for an assessment of capability to provide informed consent to medical assistance in dying.
