

Medical Staff Vacancy Recruitment

Recruitment of Medical Staff should be done in accordance with the Medical Staff Rules, Section 3.2. This guide will serve as a checkpoint only to facilitate the steps required for this process and is designed to assist medical staff leaders in the process of filling a medical staff vacancy.

Vacancies may be identified by any member of the medical staff, with the approval of the vacancy being a collaborative process amongst relevant leaders. The process must begin with an assessment of how the position might impact site and departmental resources. Once a Search and Selection Committee has been formed, principles of administrative fairness must be applied to the application and interview process to ensure that all eligible applicants are managed fairly and consistently.

RECRUITMENT CHECKLIST

The physician recruitment process involves the collaboration of many individuals across various Fraser Health sites. The checklist included is a step-by-step guide through the process. It is not necessarily meant to be completed by a specific individual and is not required to be submitted. It is meant strictly as a resource to assist leaders and administrators in understanding the process and their role within the process.
