

Advisory Board

Talent Development Program

Physician Partnerships & Performance has partnered with the Advisory Board to sponsor the next cohort for the Advisory Board Talent Development Program

Physician Partnerships & Performance is looking for new physician leaders or physicians interested in leadership positions to participate in this program. The Advisory Board Talent Development Program will expose you to a range of skills valuable to begin to cultivate your physician leadership skills. Workshops are **half day format** in 2018.

Access Innovative Tools: Blended Learning Model, Application Intensives, Harvard ManageMentor e-Learning Modules, On-Demand "Learning Pathway"

Year 5 begins February 2018

Cost: Fully funded, lunch provided

February 1

CLOSED

Managing Disruptive Behavior

- Understand the consequences of ignoring disruptive behavior on patient care as well as the efficiency of the organization
- Overcome personal barriers that prevent leaders from taking action
- Develop the skills to execute strategic confrontations with disruptive individuals
- Mitigate organizational barriers that might stand in the way of effectively dealing with "protected" disruptors
- Understand how departmental culture can contribute to pervasive disruption

September 25
2018
CLOSED

Impact Through Influence

- Recognize the drivers of effective influence and address them in different situations
- Select influence techniques most likely to be effective
- Interpret responses and respond accordingly
- Understand the current state of your personal influence network
- Plan to strengthen and expand your network

October 30
2018

Overcoming Barriers to Higher Reliability

- Understand the common barriers to clinical guideline adherence
- Embrace best practices for designing, prioritizing, and implementing clinical guidelines
- Provide ongoing support to other physicians to increase the likelihood of guideline adoption
