WE WANT TO HEAR FROM YOU

MEDICAL STAFF SURVEY

In response to COVID-19, Fraser Health established a Physician Coordination Center (PhCC) in March 2020. This was mobilized to be a resource hub for physicians and to coordinate medical staff activities during the pandemic. Several modalities have been used by the Center to provide timely communication to all and provide clarifications on pandemic updates as needed. These include the weekly “Physician Coordination Centre Bulletin”, the Monday evening “Conversation with the CEO and Medical Experts” sessions and updates to the [Medical Staff COVID-19 web page](#).

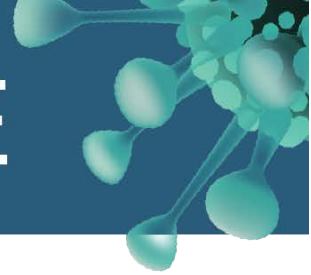

To ensure we are meeting your needs, we need your feedback. [Click here](#)  to participate in this short survey (<5 minutes to complete) to provide us information to help guide our communications in the months to come. Participants will have a chance to win \$20 Starbucks coffee cards.
